How much can you earn?

Let's look at a simple example:

Partner 1 (Level 1) gets registered and starts referring clients. They signed up 10 customers. These clients together place 100 lots. Subject to the terms of the partner reward program Partner 1 will receive 15\$ per lot. So, they will earn $100 \times 15\$ = 1,500\$$.

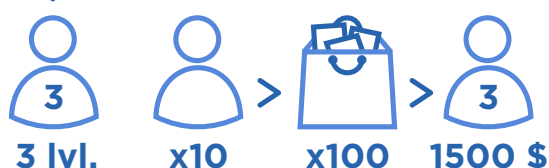

Their first client becomes a partner (Level 2) and refers 10 more customers. These clients together place 100 lots. Subject to the terms of the partner reward program Level 2 Partner will receive 15\$ per lot.

So, they will earn $100 \times 15\$ = 1,500\$$.

Their first client becomes a partner (Level 2) and refers 10 more customers. These clients together place 100 lots. Subject to the terms of the partner reward program Level 2 Partner will receive 15\$ per lot.

So, they will earn $100 \times 15\$ = 1,500\$$.

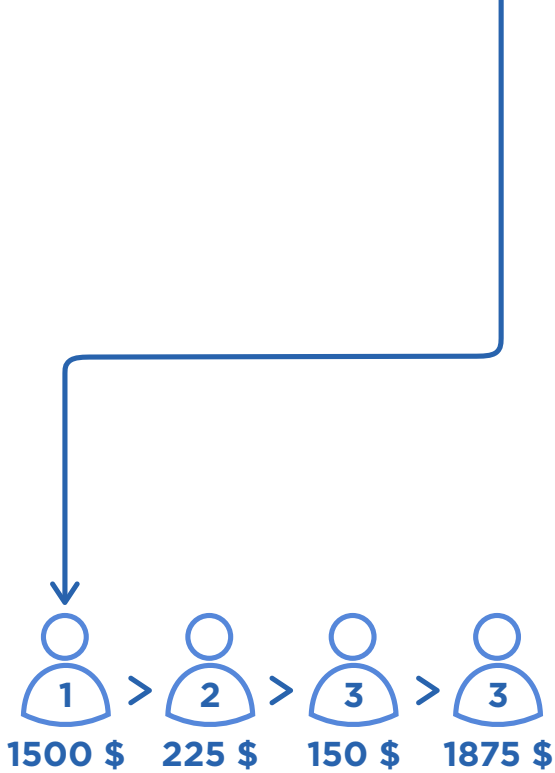

Subject to the terms of the partner reward program, Level 1 Partner will receive 15% of the income of Level 2 Partner. They will thus earn \$225.

Subject to the terms of the partner reward program, Level 2 Partner will receive 15% of the income of Level 3 Partner. They will thus earn \$225.

Subject to the terms of the partner reward program, Level 1 Partner will receive 10% of the income of Level 3 Partner. They will thus earn \$150.

Thus, Level 1 Partner will earn 1,500\$ for referred clients + 225\$ for Level 2 Partner + 150\$ for Level 3 Partner = 1,875\$ in total.

Thus, Level 2 Partner will earn 1,500\$ for referred clients + 225\$ for Level 3 Partner = 1,725\$ in total.

Level 3 Partner will earn 1,500\$ for referred clients.

Statistically our partners earn an average of 10-15% of the client's deposit!
